

BHEEM CHAND

FULL STACK DEVELOPER

bheemchand8126@gmail.com | [Linkedin](#)

PROFILE

Full Stack Developer with 3+ years of experience building scalable web applications, RESTful APIs, and enterprise dashboards using **PHP (Laravel), React.js, JavaScript, and MySQL**. Strong understanding of **OOP, MVC** architecture, database optimization, authentication systems, and deployment workflows. Experienced in delivering enterprise solutions for **Indian Railways** and collaborating with cross-functional teams to develop secure, high-performance applications.

EXPERIENCE

- Full Stack Developer, Beatle Analytics****Dehradun, Jul 2023 to Present**
 - Designed and delivered scalable web applications, RESTful APIs, and enterprise reporting dashboards using Laravel, React.js and MySQL; shipped production features for internal and external users.
 - Implemented JWT authentication and role-based access control to secure web and mobile integrations.
 - Optimized database schemas and SQL queries, reducing API response time by **40%** and improving application performance.
 - Managed VPS production deployments, configured monitoring and incident response processes to maintain high availability.
- Software Developer Trainee, Dream Tech****Dehradun, Dec 2022 to May 2023**
 - Built CRUD applications and REST APIs following MVC and OOP principles.
 - Developed backend services, database models, and front-end integrations.
 - Performed testing, code reviews, debugging, and performance optimization to enhance reliability and maintainability.

EDUCATION

- MCA, Graphic Era Hill University, Dehradun | CGPA: 7.6/10****2021 to 2023**
- B.Sc. Information Technology, HNBGU, Dehradun | 67%****2018 to 2021**

PROJECTS

- Running Room Management System (RRMS) – Indian Railways**

Designed and implemented secure RESTful APIs using Laravel, MySQL, and JWT authentication for mobile application integration and administrative portals. Developed responsive user interfaces with Blade Templates and Tailwind CSS, delivering modules for room allocation, occupancy monitoring, meal booking, maintenance workflows, and compliance reporting. Integrated payment gateway solutions for online room and meal bookings. Improved application performance through database optimization, query tuning, and indexing, resulting in faster API responses and enhanced scalability.
- OBHS Feedback Management System & Attendance Management System – Indian Railways**

Developed web applications using Laravel, React.js, Tailwind CSS, and MySQL for passenger feedback management and attendance tracking. Built secure REST APIs with OTP verification, interactive dashboards, analytics, and reporting modules for complaint resolution, staff performance, and operational monitoring. Optimized database queries and generated audit-ready reports to improve system efficiency and transparency.

TECHNICAL SKILLS

- Backend:** PHP, Laravel, REST APIs, MVC Architecture, Object-Oriented Programming (OOP)
- Frontend:** React.js, JavaScript (ES6+), HTML5, CSS3, Bootstrap, Tailwindcss
- Database:** MySQL, SQL Query Optimization
- Tools & Platforms:** Git, GitHub, Postman, Visual Studio Code (VS Code), Linux, VPS
- Concepts:** JWT Authentication, Role-Based Access Control (RBAC), API Integration, Database Design
